

MEHUL TYAGI

SUMMARY

Detail-oriented student with strong skills in AI, Machine Learning, and Android App Development. Proven ability in Agile Methodology and Project Management, demonstrating a commitment to innovative solutions in technology.

PROJECTS

Hybrid Intrusion Detection System: Built an AI-based network security monitoring system for intrusion detection, attack-type classification, anomaly scoring, and risk-based alerting. Implemented real-time packet monitoring with Scapy, a Flask dashboard for live analysis, and persistent high-risk alert logging using a real ToN-IoT network traffic dataset.

ChatWave: Built a real-time Android chat application in Java using XML layouts, MVVM architecture, Firebase Authentication, Firestore, and Firebase Cloud Messaging. Implemented one-to-one messaging, live user presence, seen/delivered receipts, unread badges, dark mode.

EDUCATION AND TRAINING

Bachelor of Computer Applications, Computer Science, Expected in 06/2027

Bennett University- The Times Group - Greater Noida
CGPA: 8.2 SGPA: 9

Sachdeva Millennium School - Agra
CBSE 12th- PCB 85%
CBSE 10th - 91%

CERTIFICATIONS & LICENSES

- Introduction to Automation Testing - 2026
- Test Design Technique - 2026
- Introduction to Performance testing - 2026
- The Bits and Bytes of Computer Networking - Google - 2026
- Introduction to Android Mobile Application Development - Meta - 2026

SKILLS

Technical Skills

- Ai and Machine learning
- Programming languages: Java, C, C++, Python
- Android App Development
- Data Structures & Algorithms
- Database: Firebase, Firestore
- REST APIs
- Network Essentials

Tools & Technologies

- Git, GitHub
- JIRA Software
- Firebase (Authentication, Firestore, FCM)
- Android Studio
- Flask, Scapy
- VS Code

Soft Skills

- Problem Solving
- Analytical Thinking
- Communication
- Teamwork
- Time Management

Methodologies

- Agile Methodology
- Project Management

Other Skills

- Source and version control: Git, GitHub
- Debugging & Troubleshooting
- Software Testing Basics
